

Teindland Wind Farm

Viewpoint 9 Craigellachie

Existing View

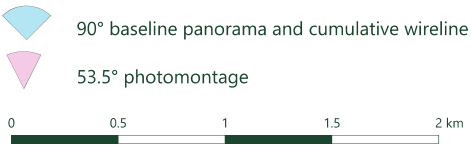

This viewpoint is located on Leslie Terrace. Homes and gardens along the street screen views to the south and east. There is an open outlook to the north and west along the Spey valley, looking out over the roofs of nearby homes and between garden vegetation. In each direction the valley sides beyond the river can be seen, with woodland along the valley and up the valley sides. There are longer views to the north, including farmland along the valley floor and open top of Brown Muir which is seen forming part of the distant skyline looking along the valley.

Predicted Change

The Proposed Development would be seen standing above the forested skyline to the north, to the right of Brown Muir. At night, lights on T1 and T12 would be visible alongside street lights, lights on traffic on the several roads that can be seen, and lights in homes and at industrial sites.

Cumulative

Wind farms in planning would not be visible from this location.

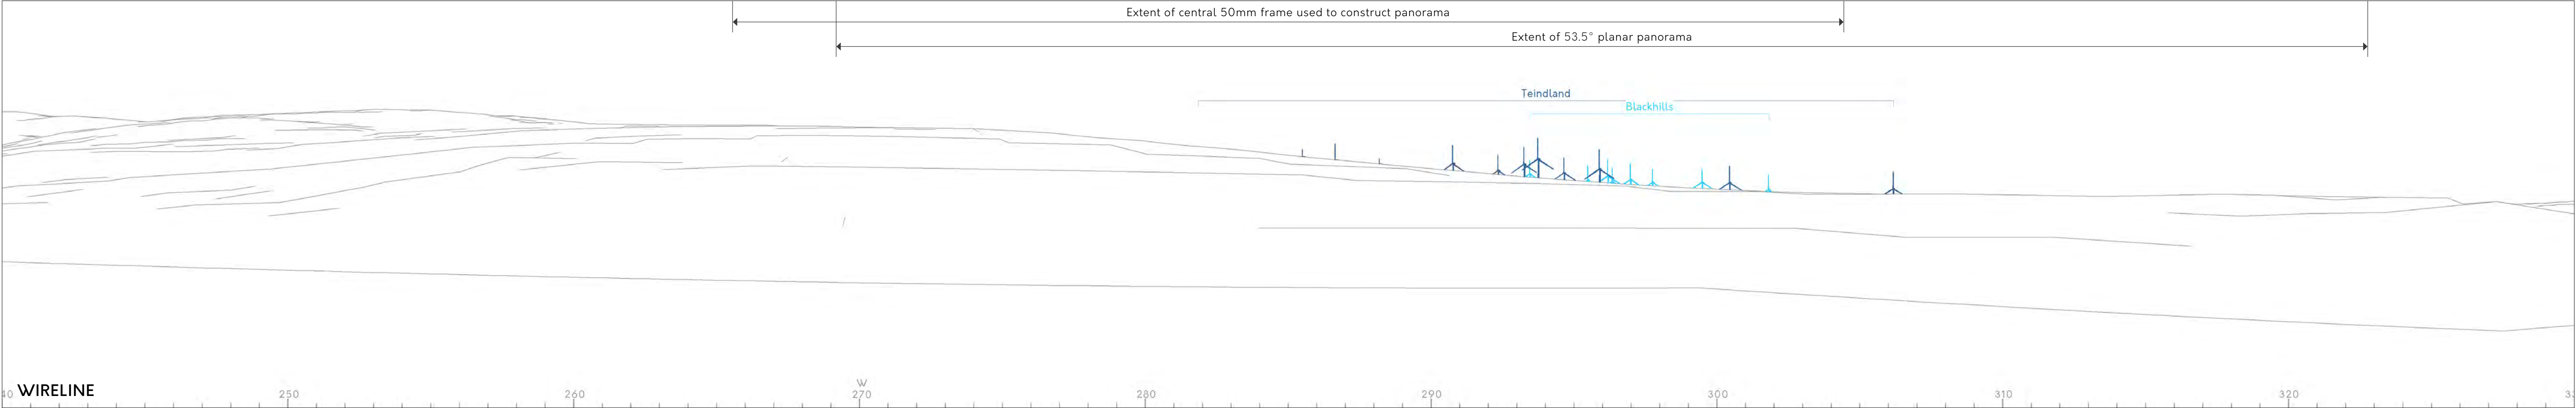

Drawing No: ABS-0039-VP1	Drawn By: IF	QA: MF	Date: 2025-03-20
